PROFILE

I'm currently looking for internship opportunities where I can use and grow my computer skills. I'm comfortable working with Microsoft Office (especially Excel, Word, and PowerPoint), Google Workspace, and a variety of digital tools. I enjoy organizing information, solving problems, and picking up new tech fast—whether it's data entry, admin work, digital content, or anything that involves working on a computer. I'm enthusiastic, hardworking, and eager to gain hands-on experience while contributing to a team.

EDUCATION

Computer Science, High School

SEPTEMBER 2016 — MAY 2018

Software & Web Development, The Tech Academy

AUGUST 2024 — PRESENT

Currently studying Software and Web Development, with intermediate front-end and Junior level back-end skills. Experienced in HTML, CSS, JavaScript, Python, Bootstrap, React, and Excel. I have created functional one-page websites and back-end applications, with experience in debugging code. Eager to grow and learn in the field through professional experience!
